Nenad Stojković
Frontend Developer

👤 Profile

An experienced front-end developer with over 6 years of expertise in building web applications, dedicated to crafting intuitive and high-performing user interfaces. For the past 3 years, he has collaborated with an international team on a specialized module, refining his technical and communication skills. Passionate about writing scalable, maintainable code, he thrives in both team settings and independent projects. Always staying updated on new technologies, he ensures top-quality solutions and optimized workflows.
